Bugs and Improvements:

1. Sign Up , Login and all navigation pages can be improved from pop-up to normal page.
2. If you choose any specific category of product it has to be reflected in the correct product, not others.
3. At add to cart page, asking for quantity is necessary so it can be improved.
4. Websites should be faster so make use of high quality but less size.
5. In some pages footer is not properly placed so it should be consistent throughout all the pages.
